

1. Level one heading
  - a bullet point
  - another bullet point
  - yet another... you guessed it... a bullet point
  - pick your poison
2. It is smart enough to figure out the numbering for you.
  - pretty crazy
3. You can just throw math wherever you like

$$\frac{a}{b} = \frac{c}{d} + \frac{e}{f}$$

- Single line  $\frac{a}{b}$  why not
4. Look, an alphabetical sublist:
    - a) whoa
    - b) trippy
  5. Let's put a graph. Hope it works!
